

ILLUSTRATED PARTS

P366

This diagram shows the exploded view of a shower head assembly. The components are labeled as follows:

- A**: A circular mounting plate or flange with a central hole.
- B**: A curved elbow pipe with threaded ends at both ends.
- C**: A bracket or arm that connects the shower head to the mounting plate.
- D**: A small circular washer or spacer ring.
- E**: A small circular cap or seal.

The diagram illustrates how these parts fit together to install a shower head onto a wall.

ID	Kit Number
*A	221000
*B	035-004
*C	4266
D	302-309
E	S6-528-18 (1.8gpm / 6.8l/min)
	S6-528-15 (1.5gpm / 5.7l/min)

*Specify finish when ordering.

Tête de douche 2 jets avec bras

This diagram shows the exploded view of a shower head assembly. The components are labeled as follows:

- A**: A circular flange or mounting plate with a central hole.
- B**: A curved elbow pipe with threaded ends at both ends.
- C**: The shower head body, which is a circular unit with a spray face and a mounting bracket.
- D**: A small O-ring or seal.
- E**: A small cap or plug.

The diagram illustrates how these parts fit together: the elbow pipe (B) connects to the shower head body (C) using the O-ring (D) and cap (E). The flange (A) is shown separately, likely representing the mounting surface.
